# Psychological Phenomenologies Between Individuals and Masses

## Terminations of Transcendences and Structuralisms

Contents	page
1. End of transcendence	11
1.1. Kant and consequences	14
1.2. From totalitarian transcendence towards ethics of freedom <i>and</i> liberty	24
1.3. Allsurrounding, sensu-perceptual experience, consciousness	31
1.4. Empirical ideality, ethics of liberty, freedom, and culture	35
1.5. Environment, time, culture, and self-actualization	36
1.6. Myths, critical empirics, and culture	38
1.7. Reality, and transcendence	39
1.8. Is heaven a naught ?	41
1.9. Transcendence, signs, structures	42
1.10. Love is not unlimited	43
2. Empirical Ethics Test (S-T-E)	45
3. Between Individuals and Masses (BIM I)	
Is Structuralism theory of immanence?	51
3.1. Is structuralism theory of immanence?	55
3.2. What does that mean, structuralism?	60
3.3. Among the hens the cocks are the most beautiful	62
3.4. Cure of frustration and self-actualization	64
3.5. Alienation, or: How would Achilles succeed to make up with the turtle?	65
3.6. Structural parts and schizocratics	66
3.7. Structuralism, or: psychological transcendences and disputes	68
4. BIM II: Music and crowding. Neighbours in Europe. Complex analysis.	70
4.0. Preface	72
4.1. Individuality and formation. Music and crowding	77
4.2. Neighbours in Europe 1. Needs and acculturation test, NAT (D, CH, NL)	90
4.3. Music and crowding. A post Fechner paradox in different crowding fields	97
4.4. Neighbours in Europe 2: from national stereotypes between Dutchmen and Germans following a grid conception towards complex-analysis	103
4.5. Litterature (also in text or at end of chapters), annotations	117
5. Psychological catalysators (PC)	
5.1. PC 1 in text- and complex-analysis	120
5.2. PC 2 and creative social learning	127
5.3. PC 3 and guided imagineries and homogenities at Desoille and Wolpe	131
6. Appendix: Elaborated Configurations' Frequency Analysis e-KFA	
6.1. Why e-KFA?	138
6.2. Table: check chi-square	140
6.3. Algorithme e-KFA	141
6.4. Summaries to chapter 4.3. and proposal of a regression coefficient ( $R_u$ ) for u-curves	145
6.5. Psycholinguistic Apperception Test (P-L-A-T)	147
6.6. Index	167
